Brazil's Gas Market After Reform: Government & Stakeholders to Present New Opportunities at the 2nd Brazil Gas Summit

- Featuring announcements on projects, plans and timelines in Brazil's gas sector
- Key focus on the gas market liberalisation, pre-salt opportunities, outlook for Brazil's gas infrastructure and integrating the gas and energy sectors in Brazil
- Summit will take place virtually, featuring online sessions, a Masterclass and high-level networking
- Virtual Event will take place on 15-17 February, through an interactive platform which will help investors to prepare their future projects in Brazil
- Gas Summit is sponsored by Petrobras and Transportadora Associada de Gás (TAG) and endorsed by the Federal Government of Brazil.

The 2nd Brazil Gas Summit will take place on 15-17 February. The Summit is endorsed by the Federal Government of Brazil, organised by CWC and GFEn and sponsored by Petrobras and Transportadora Associada de Gás (TAG) and is the official platform to network and do business in the newly reformed gas sector. The Summit will include eight panels & sessions, enabling senior decision makers across the value chain to connect and engage with each other virtually to hear the latest project announcements and facilitate practical solutions to successfully expand their market share in Brazil's energy sector.

The event will welcome key speakers, including **Daniel Lamassa**, Undersecretary of Oil, Gas & Energy of the **Government of Rio de Janeiro**, **H.E. Rosilena Lindo**, Undersecretary of Energy of the Government of Panama, **and many others**.

The Summit constitutes of virtual networking opportunities, executive panels delivered by thought industry experts providing exclusive the latest updates on key topics such as:

- Discussing opportunities and challenges of the New Gas Market (Novo Mercado)
- Infrastructure development to support gas networks, production and accelerate expansion
- Differentiating each source of power and their attributes to enable fair competition
- Links from Brazil to the surrounding markets
- Assessing the Gas, LNG & Renewables usage potential in Latin America

Over the past decade, the CWC Energy Portfolio has hosted over 100+ Ministers and Senior Officials at various events. The 2nd Brazil Gas Summit will bring together top energy stakeholders and key

decision makers interested in the Brazilian energy sector. CWC, now a brand of Global Future Energy, will again provide the only platform for high level stakeholders in the region to convene.

Speakers will include:

- **Rodrigo Costa Lima e Silva**, Director of Natural Gas & Refining, **Petrobras**
- **Alvaro Ferreira Tupiassu**, Executive Manager of Gas and Energy, **Petrobras**
- **Thomas E. Valentine**, Senior Partner, **Norton Rose Fulbright Canada LLP**
- **Larissa Dantas**, CEO, **POTIGAS**
- **Cláudia Bitar**, President – Director, **Grão do Pará**
- **Stephen Thompson**, Global Head, Poten & Partners, **LNG & Natural Gas Advisors**
- **Alexandre Siciliano Esposito**, Head Department BNDES Energy Division, **BNDES**
- **Hugo Figueirêdo**, Chairman of the Board, **ABEGÁS**
- **Gabriel Kropsch**, Vice-Presidente, **ABiogás**
- **Rogério Manso**, President, **ATGAS**
- **Paulo Pedrosa**, President, **ABRACE**
